

# polight®

Founded in 1991 with the concept of quality and innovation, our factory has carried out important projects since that day

The company has made a constant progress with the project carried out in the past and today by making professional production in the fields of architectural interior and exterior lighting

The company succeeded in becoming a brand in its industry by its product range of about 1000 and its customer and project-oriented approach in the projects carried out. This success was rewarded with the demands and the desires to work from customers.

They designed models suitable for the space with their unique style in project designings, and adopted the principle of providing the fastest and highest quality service to its both domestic and overseas customers with Polight brand.

Polight Lighting Series meet the professional needs in Wall Apliques, Grass Armatures, Decorative Lighting and High Road Lighting Pillars, Facade decorations, Urban Furniture (Trashcan, Fountain, Sitting Bench, Camellia, Door, Balustrade, Bollards) and in Interior Lighting products

It offers products at an optimum level. for all your outdoor lighting needs with its quality materials and aesthetic designs.

Polight recognized as the brand value provides service with its expert staff with a sense of broad vision and quality for space lighting design and the supply, installation and after-sales care of lighting products and by-products. By the sense of aesthetic integrity of project production and placement process, it looks out for developed unique standards at every stage.
